BUILDING TEAM

The Talented People Behind the Scenes of the Organization

Andres Berlin

Chief Executive Officer

The CEO's role in raising a company's corporate IQ is to establish an atmosphere that promotes knowledge sharing and collaboration.

Silvana

Product Lead

The emphasis on innovation and technology in our companies has resulted in a few of them establishing global benchmarks in product design and development.

Johnson Stone

Manager Development

Our services encompass the assessment and repair of property damage caused by water, fire, smoke, or mold. We can also be a part of the restoration.

Dean Jones

Principal Software Engineer

An avid open-source developer who loves to be creative and inventive. I have 20 years of experience in the field.

Rachel Adams

Product Design Head

Product designer with interests in immersive computing and XR, political ventures, and emerging technologies. Able to take ideas and give them a life.

Charles Keith

UX Designer

A UX designer is the voice of the customer. Our job is to look beyond the business goals. We don't just experience user interface but also questions it.
